

GROUND SUPPORT: PIPE & BASE

From stock, we have three options for creating ground support arrangements:

- Our 'Curtain Call', telescopic pipe and base system.
- Traditional, aluminium barrel [scaffold tube], Key-Clamp joiners and height adjustable base plates.
- Trilite 200 Series aluminium, triangular truss.

Dependent upon the application one of the above options will hopefully provide a suitable ground support solution for hanging: audio visual equipment, lighting, banner graphics, drapes, star cloths etc... from. Once we understand your application, we'll be pleased to advise upon suitability accordingly.

NOTE: This page only looks at our pipe & base system. Similar pages are available for Trilite Truss and base/barrel and Key-Clamps.

STOCK EQUIPMENT

AVAILABLE FOR DRY HIRE, FULL-SERVICE HIRE (WE'LL INSTALL AND REMOVE).

- PIPE & BASE - TELESCOPIC LEGS X 2 SIZES. - TELESCOPIC CROSS BARS X 2 SIZES.
